

Arafath Hossain

Lead Programmer | Senior Full-Stack Software Engineer

PROFESSIONAL PROFILE

Lead Programmer and Senior Full-Stack Software Engineer with 9+ years of experience delivering production web applications across architecture, backend development, frontend engineering, API integration, database optimization, deployment, and technical leadership. Deep expertise in PHP and Laravel, with hands-on experience in Vue.js, Angular, Livewire, MySQL, Docker, CI/CD, payment systems, and AI/LLM integrations. Contributed to 100+ projects across diverse business domains.

TECHNICAL EXPERTISE

Backend: PHP, Laravel, Livewire, CodeIgniter, OOP, MVC, microservices	Frontend: JavaScript ES6+, Vue.js, Angular, jQuery, AJAX, HTML5, CSS3
APIs: REST, SOAP, authentication, third-party integrations, Postman	Data: MySQL, relational design, query optimization, performance tuning
DevOps: Docker, CI/CD, Nginx, Apache, deployment automation	Payments: Stripe, PayPal, SSLCommerz, subscriptions
AI: LLM APIs, AI agents, prompt engineering, multi-agent workflows	Practices: Git, GitHub, architecture, code review, debugging, technical SEO

PROFESSIONAL EXPERIENCE

Lead Programmer - Materiaplus Inc., Canada	Feb 2023 - Present
• Lead technical architecture, full-stack implementation, release planning, and production support for international applications.	
• Design Laravel and Livewire solutions and reactive interfaces with modern JavaScript frameworks.	
• Develop REST and SOAP integrations connecting internal platforms with external services.	
• Integrate LLM APIs and AI-agent workflows for intelligent processing and task automation.	
• Implement multi-currency payment and subscription workflows using Stripe, PayPal, and SSLCommerz.	
• Improve delivery through Docker environments, CI/CD automation, server administration, and structured releases.	
Full-Stack Web Developer - Field Booster Ltd.	Nov 2021 - Jan 2023
• Delivered business applications using PHP, Laravel, Vue.js, and MySQL.	
• Built REST APIs for web and mobile clients with token authentication, validation, and reliable error handling.	
• Improved application security, code quality, performance, and core web metrics.	
Software Developer - MMIT Soft Ltd.	Dec 2020 - Oct 2021
• Developed web applications, dashboards, and backend modules using Laravel, CodeIgniter, and MySQL.	
• Improved efficiency through schema design, SQL optimization, debugging, and maintenance.	
Web Developer - SA Websoft	Jan 2019 - Apr 2020
• Built custom web solutions, reusable frontend features, and object-oriented backend modules.	
SEO Expert - SA Websoft	Feb 2017 - Dec 2018
• Performed technical SEO audits, on-page optimization, performance improvements, and search-indexing work.
